Once all the secret wagers have been placed in the respective betting circles, the dealer will begin revealing each wager in turn beginning with the button. The dealer will then verify that the proper amount of chips are placed into the circle. This process will continue until all secret wagers have been completed.
 - The secret wager may not exceed the amount of chips the contestant has in front of them, otherwise the wager becomes \$100
 - The secret wager cannot be larger than the maximum bet of \$5000

All players during this round will begin with \$5,000 in tournament chips and gameplay will be identical as the previous rounds. One winner from each of the two Wild card tables, will move onto the final round. All other players will be eliminated. The final hand played in this consolation round will be conducted using the "secret wager."
16. In the event of a tie for the table winner in either round 3 or the Wild card round. All players tied after the 25 hands are played will continue on for an additional five (5) hands. The first player to bet will rotate as normal. If players remain tied after the additional five (5) hands, the round will go into "sudden death." Every hand will be evaluated to determine the winner.
17. The finals will consist of each of the table winners from round 3 (total of 4) AND two (2) table winners from the Wild card round. All finals participants will begin the round with \$5000 in tournament chips only. They will NOT be able to keep their chips they accumulated from prior rounds.

19. Each entrant's chip total after each round of 20 hands played (25 hands total) will be kept by management on a scorecard. The final hand of the finals will be conducted using a "secret wager."
20. In the interest of time and to ensure that all qualified players have an opportunity to participate, the dealer will deal one (1) hand every minute. If necessary, management will utilize a clock to ensure hands are dealt in a timely manner.
